

NOVEMBER SHOW AND TELL

This month, I would like the students to create a picture of something that begins with their letter. They can draw/colour/paint or use whatever technique they wish, to show us what their object is. **Continue to write three clues about the object, but remember to also have your child state at least one interesting fact.** After the students have guessed what the item is, then your child can tell us something about it. For example if your child drew a picture of a penguin, then they may say this is an emperor penguin and it lives in Antarctica.

If your child forgets their day or is unable to do their show and tell on a particular day, let me know and we can always switch.
